ABSTRACTED-PUB-NO: CA 2241771A

BASIC-ABSTRACT:

NOVELTY - The **container** (10) lid (11) creates an interference fit with the **container** to achieve a water resistant seal. The lid has an integral compartment (12) with a separate lid (14) that creates an interference fit with the storage compartment or may be threaded.

USE - For accompanying items e.g. **dressing**, mayonnaise, spices or for a side dish e.g. coleslaw etc.

ADVANTAGE - Different food items/combinations can be stored in a singular structure consisting of fewer pieces. The lid enables foods and liquids that would normally be combined, to be kept separate, such as **salad and dressing**, maintaining freshness.

DESCRIPTION OF DRAWING(S) - The drawing shows a perspective view of a **container** with an embodiment of the lid with integral storage and separate lid.
